

We have all heard the saying, "make sure you get a job that you enjoy and have fun with." Keith Schuh, the owner of ELS (Escort Limousine Services), said that is exactly how he got started in the limousine business. "ELS really started as kind of a joke." He and his friends

wanted to be able to go out on the weekends in style and have a little worry-free fun. It may have started out as fun, but it didn't take long before people began to hire Keith to chauffeur them around town. In fact, it only took six months before ELS purchased their second limousine.

That was fourteen years and many cars ago. Now, ELS has the largest fleet of limousines (over 35 vehicles) in Wisconsin. With three key locations: Sheboygan, Wausau, and the headquarters right here in Green Bay. Keith says, "We can go anywhere in Wisconsin, and we usually do just that". It is not unusual to pick up someone at General Mitchell in Milwaukee, with a car out of the Sheboygan location, and bring them to Green Bay or Door County. The Wausau location services the northern regions of Wisconsin.

ELS has more than just limousines. For example corporate business travelers prefer to go first class in an Executive Lincoln Town Car (a stylish car designed for comfort and leg room) to take them from the airport to a hotel, or business, for that important meeting. If the boss flies in from Chicago, impress him with the right kind of attention. Is the Mayor coming to your event? You better have the right stuff if you want them on your team. The right ride is just a phone call away.

ELS also has 20 and 28 passenger party buses and limo-interior busses to help bring out the party animal in even the shyest of people. Great for bachelor and bachelorette parties, the next baseball game, rallies, fund-raisers,

and corporate events. Whatever your needs, ELS has a vehicle to accommodate your party.

What makes ELS so special? In addition to having the largest fleet of cars in the state, could it be that they are the preferred transportation service of the Green Bay Packers? That's right, and if ELS is recommended by ThePack, aren't they who you would want to choose? Keith says the limousine business is extremely challenging at times and after fourteen years in the business, "I have seen at least fifteen limousine businesses in the Green Bay/Fox Valley area go out of business". He often bought out the struggling business. Why

did they fail? According to Keith, in this business it's

all about excellent customer service - from providing a quality vehicle to having a professional and experienced driver. "We buy all our limousines brand new; no 10 year-old used and abused cars here", Keith says. When you reserve a limo through ELS, you know you will get a beautiful car. Also, Keith has some of the most experienced drivers who will get you where you want to be, at the time you want to be there. Even though it is best to reserve your vehicle after your event is planned, the drivers can also help plan your trip in advance when you're not sure where to go next-just ask them for suggestions.

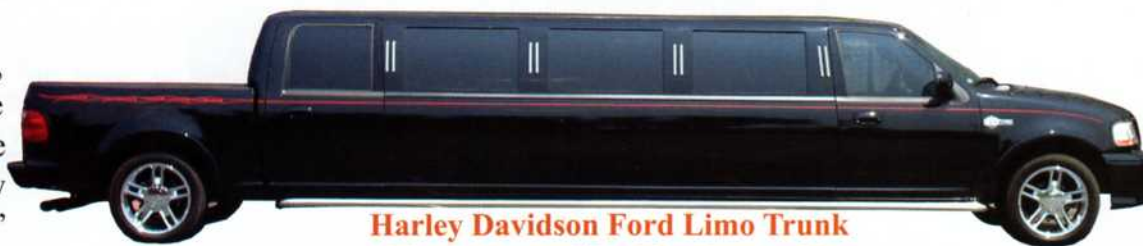

Corporate Style Vehicals

The drivers at ELS are familiar with the entire area, including all the hot spots for you party hunters. The drivers are there to make your trip or evening as care-free as possible making sure everyone has a good (and safe) experience.

When asked , "What is the one thing people should know about ELS?"

He said, "It is true even in my business, that you get what you pay for. Here you are paying for excellent service and quality rides. There are companies out there who may charge a bit less but their cars are older, unreliable, and driver service may be lacking. Usually, people rent a limo to feel special, not second-rate. What is the point of riding in some out-dated, smelly, stained, and otherwise

Harley Davidson Ford Limo Trunk
The only one like it in the world

second-rate limousine? Believe me, even though you may have saved a few dollars, you will not be happy with a car like that. The best thing to do before you reserve a limousine is to go check out the vehicle for yourself. Each customer is unique, with different needs for their event, so each limo booked by ELS is a custom

package - no two jobs are alike. The price depends on many factors such as: number of people, pick up/drop off location, total hours, and what type of event". In addition to the 6-14 passenger Millennium limousine cars, ELS has many brand new and unique vehicles like the one and only 14

passenger Harley Davidson Ford Limo Truck (the only one like it in the world!), 2 stretch Hummers, a large selection of stretch SUVs', and the 6 passenger Excalibur limo.

So, if you want to ride in style, make an impression, and turn someheads, show up in

an ELS vehicle. Remember, a limousine is not a taxi. It is an adventure in style and luxury making your event memorable for years to come.
